SEB Europe Equity Fund – a sub-fund of SEB Fund 1

Class D (EUR) (LU0427863906)

Management Company: SEB Investment Management AB, part of the SEB Group.

Objectives and Investment Policy

SEB Europe Equity Fund aims to increase the value of your investment over time by outperforming the benchmark while also applying high standards for sustainability. The fund invests at least 85% of total net assets in equities and equity-related securities issued by companies of any size and sector in Europe or traded on a regulated market there.

The investment team actively manages the fund's holdings using a quantitative strategy that integrates sustainability themes to select companies that appear to offer the best potential for long-term capital growth. The fund uses environmental, social and governance (ESG) criteria as a core element of the investment process and seeks to influence companies on sustainability issues through active ownership.

We compare the fund's return to the MSCI Europe Net Return Index, a reinvesting European index. The majority of the fund's holdings may be constituents of the benchmark. However, the fund's investment strategy does not aim to limit the extent to which the fund's holdings deviate from the benchmark.

The main categories of financial instruments are equities and equity related instruments.

The fund may use derivatives to achieve its investment objectives as well as for hedging and other efficient portfolio management purposes.

The fund follows the management company's sustainability policy when making investments. Our sustainability policy is available on <https://sebgrouplu/policies>. For detailed information about the fund's sustainability approach, see the fund's Sustainability Information Document on the Prices & Facts section of our website.

Generally, investors can buy or sell units of the fund on any bank business day in Luxembourg except 24 and 31 December.

The unit class is distributing.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 year(s).

Risk and Reward Profile

The risk and reward indicator illustrates the relationship between risk and the expected return for the fund. The higher the fund is positioned on this scale, the greater the possible reward, but also the greater risk of losing money. Category 1 does not mean that the investment is risk-free.

The risk category is calculated using historical data or simulated historical performance when actual historical data is insufficient. Past performance may not be a reliable indicator of the fund's future risk and reward profile.

This fund is in category 6. This means that the risk for value changes in the fund is high. This category may change over time.

Equity funds are generally subject to large fluctuations in value. The fund is exposed to Europe. This may imply a somewhat higher risk compared to funds with a broader geographic diversification.

The following risks are not fully reflected in the above classification but still influence the fund's value:

Counterparty risk - if a counterparty does not fulfil its obligations to the fund (e.g. not paying an agreed amount or not delivering securities as agreed).

Liquidity risk - some of the assets of the fund may become difficult to sell at a certain time and for a reasonable price.

Operational risk - the risk of loss resulting from, e.g. system breakdowns, human errors or from external events.

Currency risk - the fund invests in securities that are issued in currencies other than the base currency of the fund. As a result the fund is subject to currency risk, which arises from changes in the exchange rates.

Charges

One-off charges taken before or after you invest	
Entry charge	0.00 %
Exit charge	0.00 %
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	1.45 %
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

The entry and exit charges shown are maximum figures. In some cases, you might pay less - more information can be obtained from your financial adviser or distributor. Ongoing charges are used to pay the costs of running the fund, including the costs of marketing and distribution.

The Management Company may charge an additional exit charge of up to 2% of the NAV of the units redeemed within six months of their issue.

The ongoing charges figure is based on expenses for the calendar year 2021. The figure may vary from year to year. Transaction costs and performance fees are not included in ongoing charges.

All charges reduce the potential growth of your investment. More information on charges can be found in the section regarding costs in the fund's prospectus, available at www.sebgroup.lu.

Past Performance

The fund was launched in 1988. The unit class was launched in 2009. For the calculation of past performance all charges and fees are included, except any entry and exit charges you may have paid when buying or selling units of the fund. The past performance is calculated in EUR.

The performance of the fund is not tracking the index.

The past performance of the fund is no guarantee for future performance.

- 1 The performance during this period was achieved under circumstances that no longer apply, because the objectives and investment policy of the fund materially changed.
